PROFILE SUMMARY

Final-year BCA student with a strong foundation in Python, C++, and Java, along with practical knowledge of Data Structures & Algorithms (DSA), Database Management Systems (DBMS), and Power BI. Hands-on experience building Python-based applications, including an expense tracker and a student management system. Seeking an entry-level opportunity in Data Analytics to apply analytical and problem-solving skills to real-world data.

EDUCATION

Bachelor of Computer Applications (BCA)

Institute of Management Studies, Noida, Sector 62

Class XII

Class X

KEY SKILLS

C++, Java, Python, Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Power BI, FastAPI, REST API, GitHub, Backend Web Development, Programming, Coding

PROJECTS

Personal Expense Tracker

- Built a Python-based application to record and track daily personal expenses.
- Implemented category-wise expense tracking to help organize and monitor spending.
- Generated simple reports/summaries to give a clear overview of monthly expenses.

Student Management System

- Developed a Python application to manage student records, including add, edit, delete, and search functionality.
- Applied database concepts to store and retrieve student data efficiently.
- Focused on clean, functional design to make record management simple and reliable.

CERTIFICATIONS

- Data Analysis with Python (DA0101EN) — IBM, valid from Dec 2025
- Basics of Python — UniAthena, in partnership with Cambridge International
